Dear Parents/Carers

We have reached the half way point of this half term, although January is still stubbornly with us, the start to term has gone very quickly and has been packed with learning and activity.

It is 2 weeks since we had our Times Table Rockstars day. We want to embed times table knowledge with the children as it will help to secure wider understanding of maths. Please keep practicing at home - you can play games or just recite them for a few minutes a day. All helps.

Don't forget, as part of Mental Health Week we are thinking about emotions and on Friday 7 February children are invited to come to school dressed as a colour to represent an emotion, or as an Inside Out character.

Looking forward to half term there are a couple of events run by St Austell Festival of Children's Literature that Carclaze children will enjoy.

Saturday 15 February - Unicorn Academy with Julie Sykes

27th January - 2nd February

In the news this week

New data has shown that 2024 was the Earth's hottest year on record, warming by 1.5°C. Around 200 countries had agreed to help keep the temperature rise below this figure because scientists say that increases could cause more extreme weather. This includes events such as heatwaves, storms, and wildfires.

Things to talk about at home ...

- > Share what you know about climate change with others at home, and ask others to share their understanding.
- > Do you think more could and should be done to tackle climate change? If so, what and by whom?

HOME INFORMATION

January's Musician of the Month

LUDWIG VAN BEETHOVEN

About: Ludwig van Beethoven (17th December 1770 – 26 March 1827) was a German composer and pianist who remains one of the most admired composers in the history of Western music; his works rank among the most performed of the classical music repertoire and span the transition from the Classical period to the Romantic era in classical music. In his early period, he forged his craft whilst his middle period showed an individual development from the styles of Haydn and Mozart. During this time, he began to grow increasingly deaf. In his late period, he extended his innovations in musical form and expression.
